SENSATIONAL CHARGES IN CON-NECTION WITH SALE OF DANISH WEST INDIES.

\$500,000 IS THE AMOUNT

Mr. Richardson of Tennessee, the Democratic Leader, Startles the House by Reading Extracts From an Alleged Secret Report of a Danish gating Committee Appointed.

Washington, March 28 .- A genuine sensation was caused in the house by ing to take identical attitude with the the presentation by Mr. Richardson of other powers for the "open door," Tennessee, the Democratic leader, of harges alleging the corrupt use of a fund of \$500,000 in connection with the sale of the Danish West Indies. The charges were contained in an alleged secret report of Captain Walter Christmas to the Danish government, corrupt negotiations for bringing the sale of the islands to a consummation. The report, extracts from which Mr. Richardson read, mentioned the the arrival of the government gunboat names of Abner McKinley and his partner, Colonel Brown; C. W. Knox. who was described as an intimate friend of Senator Hanna; Richard P. Evans, who was said to represent Mr. Gardner and his friends in the house, and two press associations, the names of which were not given, as having been interested in the matter.

The charges against members of congress were not specified. Upon the basis of this report Mr. Richardson asked the adoption of a resolution for the appointment of an investigating committee of seven. The speaker ruled the matter was privileged after Mr. Richardson had amended his res olution so as to specifically

include Members of the House.

Great excitement attended the whole proceeding. Mr. Cannon of Illinois insisted that Mr. Richardson's presentation was fragmentary and that the whole matter should go over in order that members might read the documents presented, which included news paper extracts, affidavits, etc., in the record. Christmas, he declared, on his own statement, was a briber and Anthracite Miners, However, Will Not worse. But the house voted down the motion to postpone, and the resolution, after being amended in minor particulars was adopted. The speaker immediately appointed the following committee to make the investigation: Messrs. Dalzell (Rep., Pa.), Hitt (Rep., Ills.), Cousins (Rep., Ia.), McCalla (Rep., Mass.), Richardson (Dem., Tenn.), Dinsmore (Dem., Ark.) and

Cowherd (Dem., Mo.). The army appropriation bill was subsequently passed without material amendment and a rule was adopted to make the bill to retire officers of revenue cutter service a continuing order until disposed of, the order not to interfere with appropriation or revenue bills or conference reports.

STATE DEPARTMENT'S REPLY. Paid No Commissions on Sale of the Danish West Indies.

Washington, March 28 .- It is said that the answer of the state depart ment to the Richardson resolution directing an investigation into the charg es made in connection with the Danish West Indian treaty will disclose the fact that, according to the record. the United States government has refused to have to do with any persons as a party to the treaty who were not directly connected with the Danish government. The department also placed on record its determination to pay no commission to any person on account of the cession of the islands. It will be pointed out that our government had no right to dictate to the Danish government as to what it should do in the matter of paying com-

Longshoremen's Wage Scale.

Cleveland, March 28 .- After nine days' discussion an agreement was reached between the dock managers in Lake Erie ports and the International Longshoremens' association. Last year's wage scale and an 11-hour day are the terms agreed upon. The settlement eliminates the probability of a strike during the season of navigation. Twenty-five cents an hour will be paid for extra work. The rate for shoveling ore will be 13 cents a

BABCOCK WON OVER.

Holds the Deciding Vote on the Cuban Reciprocity Plan.

Washington, March 28 .- Representative Babcock of the ways and means committee called at the White House in response to a request from the president. It was discovered that the committee stands eight to eight, as between the Payne and Tawney Cuban reciprocity propositions and that Mr. Babcock, who has been absent on account of illness, held the deciding vote. After the interview it was stated that Mr. Babcock had been won over by the president and that he would vote for the Payne proposition.

Boys Go on Strike.

St. Louis, March 28,-A strike of 160 boys compelled the Obear-Nestor glassworks in East St. Louis, employing 600 men, to shut down. An increase in wages and the shortening of their hours is demanded by the boys.

GERMANY'S ATTITUDE.

Will Fall in Line With Other Powers on "Open Door" in China.

Berlin, March 28 .- The Associated Press has high authority for saying that the government of the United States has been sounding Germany as to how far the latter country would go toward maintaining the "open door"

This inquiry, which was initiated prior to the trip of Admiral Prince CHAIN Henry of Prussia to the United States was not made with the object of eliciting well phrased writings on the subject, nor general assurances, nor even so-called guarantees, as the administration at Washington, according to information here, thinks there has been quite enough of such diplomatic interchanges. But the purpose of this inquiry was to learn, for the guidance of Washington, whether Germany, in Officer to His Government-Investi- any event, would take a resolute stand for equal trade opportunities. This inquiry resulted in obtaining from the very head of the German empire the impression that Germany, while will would not, in a final instance, oppose something that Russia really desired This is the first principle of Germany's the East Asian question.

Strike on April 1.

New York, March 28 .- Mine workers and mine owners of the anthracite fields debated their differences for four hours in a conference arranged by the conciliation committee of the National Civic Federation, but the meeting was without result save that the workers agreed not to strike on April 1, as decreed at the Shamokin convention There is to be a further friendly dis cussion between the two interests and Senator Hanna, as chairman of the industrial department of the federa tion, was empowered to call another conference at any favorable time with in the next 30 days. The workers asked for an increase in pay, a short ening of the working day to eight hours and the adoption of a scale for the entire district. The operators offered to meet employes with grievances at any time, but insisted that there be no distinction between union and non-union men. They also as serted that the present market conditions did not warrant any increase in wages or a decrease in working

Insurgents on Island of Samar Agree to Lay Down Their Arms.

Manila, March 28 .- General Smith, who is in command of the American forces on the island of Samar, had a 3-hour interview with the insurgent general, Guevarra, and several officers of his command. Guevarra succeeded General Lucban as insurgent leader in Samar and has signified his intention of surrendering to the American authorities. It was arranged between General Smith and General Guevarra of an item that the latter, with the entire force under his command and all their rifles, would surrender April 15. The serviceable rifles to be turned over number 250. Of these 125 are Krag-Jorgensens.

General Smith, referring to his interview, said he was surprised at Guevarra's bearing, and that the leader impressed him as being a man of resource and devoted to a high purpose.

Three Unions Withdraw From the Racine (Wis.) Trades Council.

Racine, Wis., March 28 .- The refusal of Racine laboring men to allow the acceptance by the city of a library offered by Andrew Carnegle will doubtless break up the trades council in cluding all the leading unions. Members of this council presented a pro test to the city council against the library but withdrew it without consult ing the trades council. For this they were expelled. They were re-elected to the central body by their respective unions, however, and on a refusal to accept their credentials three big unions left the trades council.

Population of Berlin.

Berlin, March 28 .- A census of this city gives the population at 1,901,567. The increase in population during the last year is only 12,857, as against an increase of 42,493 for the preceding year. This falling off in the yearly increase is attributed to the movement of the inhabitants to the suburbs as a result of electric traction.

ALMOST COMPLETE REORGANIZATION

Many Changes Have Been made in the Motive Department of the N. P.

LOCALLY SOME CHANGES The Position of Pit Foreman at the Shops has Been Abolished— Other Arrangements.

While the recent changes in the official regime of the Northern Pacific have been alluded to at different times the complete list of changes have not as yet been published in detail. It seems that there is almost a complete reorganization of the road and especially so in the mechanical and motive departments. Many of these changes have affected Brainerd in one way and another.

The most recent change is the appointment of J. M. Hannaford to the position of second vice president in charge of traffic. W. G. Pearce resigned as general manager of the company to engage in other business, and Thomas Cooper has been appointed to succeed him. Then following down the line the following changes have been made in the territory covered by road foremen: C. T. Hessmer is assigned to the Dakota division in place of C. S. Larrison, assigned to other duties. Mr. Thornton foreman. Hessmer will have headquarters at Fargo and will receive instructions from Master Mechanic Curry. C. E. Allen is assigned to the Yellowstone division, with headquarters at Glendive, and will receive his instructions from Master Mechanic Smith. J. H. Sally is assigned to the entire Montana division and his headquarters will be at Livingston. The duties pertaining to road foreman on the Minnesota and Pacific divisions will be attended to by the respective master mechanics.

J. E. Goodman has been assigned to the position of mechanical inspector with headquarters at St. Paul, and will attend to such duties as may be assigned to him by the superintendent of motive power. His position will require him to give particular attention to the manner purchase of Section 36, Township It cures or no pay. Only 25c at Mcin which equipment is maintained 138, Range 27, consideration \$3,000. and cared for.

C. S. Larrison, formerly of Fargo, has been appointed air brake inspec tor with headquarters at St. Paul, succeeding J. E. Goodman.

The following is a complete list of the changes in jurisdiction of master mechanics effective April 1: H. A. Lyddon, of this city is appointed master mechanic with headquarters at Staples, and will have charge of mechanical matters of the Minnesota division and branches, except Como and St. Paul terminals. Richard Smith is appointed master mechanic with headquarters at Glendive and he will have charge of mechanical matters on the Yellowstone division including the Mandan terminal, James Bruce is appointed master mechanic with headquarters at Head of Bay, Tacoma. Morris Hickey has been appointed master mechanic with headquarters at Seattle. S. L. Bean will hereafter have charge of the Brainerd shops and the first and second districts of the Lake Superior division. H. M. Curry will have charge of the Fargo shops and mechanical matters on the Dakota division. W. S. Clarkson will hereafter have charge of the Livingston shops and mechanical matters on the Montana division.

Of course the changes affecting Brainerd most are in the cases of S. L. Bean and H. A. Lyddon. Mr. Lyddon has been promoted from general foreman at the shops to a very important position. Mr. Bean has finally got what he has been long hoping for, a reduction of his jurisdiction. He had too much mileage before to look after, but this change makes it much more convenient for

Some other local changes at the shops have been also announced. L. Cooley, pit foreman at the shops, has resigned and the position has been abolished effective March 31. That part of the shop will now be handled by gang foremen and to such positions the following machinists have been appointed: J. P. Anderson, William Martin, Samuel King and George Fox.

Arthur Dinan, formerly general foreman of the shops at Gladstone, has been appointed and has accepted the position of general foreman of the sho, in this city and will take charge April 1, succeeding H. A. Lyddon, assigned to other duties.

EXAMINATIONS BEING HELD.

Firemen Being Examined by Board for Positions as Engineers For The N. P.

A board of examiners composed of Master Mechanic S. L. Bean, Road Master Hessmer and road Foreman Lincoln is in session this week examining firemen who are looking for promotion.

There are upwards of eighteen Mrs. White Arrived Home Think firemen who are looking for promotion and the examination will be extended over several days yet. Many of these men are to be assigned to positions on the Minnesota and Dakota divisions of the Northern Pacific.

MUSIC AND DRAMA.

One of the gems of "Julius Caesar" which will be presented by Mr. Frederick Warde and his great company at the Brainerd Opera House tomorrow night is the speech of Brutus, in the pulpit of the Forum in Rome. It will be a treat to see Mr. Charles D. Herman in this part. This speech occurs just after the murder of Julius Caesar.

Romans, countrymen and lovers! Hear me for my cause and be silent, that thou may hear; believe me for mine honor, and have respect to mine honor, that you may believe; censure me in your wisdom and awake your senses, that you may the better judge. If there be any in this assembly, any dear friend of Ceasar's to him I say, that Brutus' love to Caesar was no less than his. If then that friend demand why Brutus rose against Caesar, this is my auswer;-Not that I loved Caesar less, but that I loved Rome more. Had you rather Caesar were living and all die slaves, than that Caesar were dead to live all free men? As Caesar loved me. I weep for him; as he was fortunate I rejoice at it; as he was valiant, I honor him; but, as he was ambitious, I slew him. There is tears for his love; joy for his fortune; honor for his valor; and death for his ambition. Who is here so base that would be a bondman? If any, speak; for him have I offended. Who is here so rude that would not be a Roman? If any, speak; for him have I offended. Who is here so vile that will not love his country? If any, speak; for him have I offended. I pause for a reply.

"THE MAN FROM MEXICO."

"The Man From Mexico" which will be presented at the Brainerd Opera House next Monday by Walter E. Perkins and his comedy company will furnish a strictly high class offering in comedy and one that will prove most satisfying to local theatre goers if the well seasoned judgment laughing success in the larger cities during the past two seasons and now that Mr. Perkins has secured the right to it, he has endeavored successfully to keep it up to the high standard fixed by its production in New York, Boston, Chicago and elsewhere. All the appointments necessary to a high class performance are carried en tour and the cast has been chosen with care and judgment. To lovers of genuine, hearty and wholly pure fun it offers perhaps the best entertainment of its kind ever Nagle Barry, Donald Brine, Philip Yale Drew, Augustus E. JOHN GRIFFITH IN "KING'S RIVAL.

Last night John Griffith was greeted at the Brainerd Opera House by a meager audience. This is a new role for this eminent actor. This is not the first time that he has appeared in Brainerd. He appeared here in 'Faust' and had he assumed the same role last night with the same supporting cast he might have been accorded a warmer reception. His role in the "King's Rival" was very good but his support outside of Miss Purnell was poor, and it should be so recorded in the annals of theatrical history of Brainerd.

ALMOST COMPLETE REORGANIZATION

Many Changes Have Been made in the Motive Department of the N. P.

CHANGES LOCALLY. SOME The Position of Pit Foreman at the Shops has Been Abolished— Other Arrangements.

While the recent changes in the official regime of the Northern Pacific have been alluded to at different times the complete list of changes have not as yet been published in detail. It seems that there is almost acomplete reorganization of the road and especially so in the mechanical and motive departments. Many of these changes have affected Brainerd in one way and another.

The most recent change is the appointment of J. M. Hannaford to the position of second vice president in charge of traffic. W. G. Pearce resigned as general manager of the company to engage in other business. and Thomas Cooper has been appointed to succeed him. Then following down the line the following changes have been made in the territory covered by road foremen: C. T. Hessmer is assigned to the Dakota division in place of C. S. Larrison, assigned to other duties. Mr. Thornton foreman, Hessmer will have headquarters at Fargo and will receive instructions from Master Mechanic Curry. C. E. Allen is assigned to the Yellowstone division, with headquarters at Glendive, and will receive his instructions from Master Mechanic Smith. J. H. Sally is assigned to the entire Montana division and his headquarters will be at Livingston. The duties pertaining to road foreman on the Minnesota and Pacific divisions will be attended to by the respective master mechanics.

J. E. Goodman has been assigned to the position of mechanical inspector with headquarters at St. Paul, and will attend to such duties as may be assigned to him by the superintendent of motive power. His position will require him to give particular attention to the manner in which equipment is maintained and cared for.

C. S. Larrison, formerly of Fargo, has been appointed air brake inspector with headquarters at St. Paul. succeeding J. E. Goodman.

The following is a complete list of the changes in jurisdiction of master mechanics effective April 1: H. A. Lyddon, of this city is appointed master mechanic with headquarters at Staples, and will have charge of mechanical matters of the Minnesota division and branches, except Como shops and car work at Minneapolis and St. Paul terminals. Richard Smith is appointed master mechanic with headquarters at Glendive and he will have charge of mechanical matters on the Yellowstone division including the Mandan terminal. James Bruce is appointed master mechanic with headquarters at Head of Bay, Tacoma. Morris Hickey has been appointed master mechanic with headquarters at Seattle. S. L. Bean will hereafter have charge of the Brainerd shops and the first and second districts of the Lake Superior division. H. M. Curry will have charge of the Fargo shops and mechanical matters on the Dakota division. W. S. Clarkson will hereafter have charge of the Livingston shops and mechanical matters on the Montana division.

Of course the changes affecting Brainerd most are in the cases of S. L. Bean and H. A. Lyddon. Mr. Lyddon has been promoted from general foreman at the shops to a very important position. Mr. Bean has finally got what he has been long hoping for, a reduction of his jurisdiction. He had too much mileage before to look after, but this change makes it much more convenient for

Some other local changes at the shops have been also announced. L. Cooley, pit foreman at the shops, has resigned and the position has been abolished effective March 31. That part of the shop will now be handled by gang foremen and to such positions the following machinists have been appointed: J. P. Anderson, William Martin, Samuel King and George Fox.

Arthur Dinan, formerly general foreman of the shops at Gladstone, has been appointed and has accepted the position of general foreman of the sho, in this city and will take charge April 1, succeeding H. A. Lyddon, assigned to other duties.

EXAMINATIONS BEING HELD.

Firemen Being Examined by Board for Positions as Engineers For The N. P.

A board of examiners composed of Master Mechanic S. L. Bean, Road Master Hessmer and road Foreman Lincoln is in session this week examining firemen who are looking for promotion.

There are upwards of eighteen Mrs. White Arrived Home Think firemen who are looking for promotion and the examination will be extended over several days yet. Many of these men are to be assigned to positions on the Minnesota and Dakota divisions of the Northern Pa-

CLOUGH ON THE STAND

VICE PRESIDENT OF NORTHERN SECURITIES COMPANY TESTI-FIES IN POWER CASE.

RECALL BANKER KENNEDY

Evidence Given to Show That in Sale of Northern Pacific Stock Each Holder Acted for Himself-Mr. Clough Declines to Say Whether His Company Received Dividends on Its Great Northern Stock.

New York, March 28 .- John S. Kennedy, banker, was recalled for cross examination in the hearing of the suit of Peter Power against the Northern Pacific Railway company. He said he bought a block of Northern Pacific stock, about \$5,000,000 worth, in 1896. There was no agreement on his part with anyone as to how he was to vote or sell his Northern Pacific stock. Mr. Kennedy had about \$10,000,000 of Great Northern stock which was voted by James J. Hill on a proxy. The formation of the Northern Pacific was not dependent upon the acquirement of either Great Northern or Northern Pa-

Mr. Kennedy said he had never heard any agreement in the Northern Securities company that any set of men were to control the company. He asserted that in the sale of Northern Pacific stock to the Northern Securities company, each stockholder acted for himself. The witness denied that there was any question or discussion to the effect that the Northern Securities company was organized to acquire a majority of stock of both roads, to maintain rates and control competition. The retirement of the preferred Northern Pacific stock had not been a part of a plan to enable anyone to control the Northern Pacific company, so far as he knew.

W. P. Clough, vice president of the Northern Securities company was then called.

Declines to Talk About Dividends.

Mr. Clough declined to say whether the Northern Securities company had received dividends on the Great Northern stock held by it. He said that Charles Steele of J. Pierpont Morgan to be discharged. & Co., George F. Baker, Jr., and A. B. Hepburn held proxies for the Northern Pacific stock in the possession of the Northern Securities company. Witnes said \$250,000,000 worth of Northern Securities stock had been included.

This concluded the examination of Colonel Clough.

Mr. Kellogg, of counsel of the Northern Securities company, asked for an adjournment until Saturday. At that session, he said, he wanted to examine Mr. Perkins of the firm of J. P. Morgan & Co. He also notified Mr. Boutelle that there were slight corrections to be made in the testimony of Mr. Morgan and it was agreed that these would be made in writing and entered train. upon the record.

Mr. Kellogg also asked that Peter Power, the plaintiff in this suit, be produced at the next session. Reply was made that Mr. Power would be produced as soon as the direct testimony was in. It was then agreed that the adjournment taken should be subject to the call of the examiner and it was said that it would probably be three weeks before the next session is held. E. H. Harriman is to be the next witness examined.

CLOUGH ON THE STAND

VICE PRESIDENT OF NORTHER! SECURITIES COMPANY TESTI-FIES IN POWER CASE.

RECALL BANKER KENNEDY

Evidence Given to Show That in Sale of Northern Pacific Stock Each Holder Acted for Himself-Mr. Clough Declines to Say Whether His Company Received Dividends on Its Great Northern Stock.

New York, March 28 .- John S. Kennedy, banker, was recalled for cross examination in the hearing of the suit of Peter Power against the Northern Pacific Railway company. He said he bought a block of Northern Pacific stock, about \$5,000,000 worth, in 1896. There was no agreement on his part with anyone as to how he was to vote or sell his Northern Pacific stock. Mr. Kennedy had about \$10,000,000 of Great Northern stock which was voted by James J. Hill on a proxy. The formation of the Northern Pacific was not dependent upon the acquirement of either Great Northern or Northern Pa-

Mr. Kennedy said he had never heard any agreement in the Northern Securities company that any set of men were to control the company. He asserted that in the sale of Northern Pacific stock to the Northern Securities company, each stockholder acted for himself. The witness denied that there was any question or discussion to the effect that the Northern Securities company was organized to acquire a majority of stock of both roads, to maintain rates and control competition. The retirement of the preferred Northern Pacific stock had not been a part of a plan to enable anyone to control the Northern Pacific company, so far as he knew.

W. P. Clough, vice president of the Northern Securities company was tody. then called.

Declines to Talk About Dividends.

Mr. Clough declined to say whether the Northern Securities company had received dividends on the Great Northern stock held by it. He said that Charles Steele of J. Pierpont Morgan & Co., George F. Baker, Jr., and A. B. Hepburn held proxies for the Northern Pacific stock in the possession of the Northern Securities company. Witnes said \$250,000,000 worth of

Northern Securities stock had been included. This concluded the examination of

Colonel Clough. Mr. Kellogg, of counsel of the Northern Securities company, asked for an adjournment until Saturday. At that session, he said, he wanted to examine Mr. Perkins of the firm of J. P. Morgan & Co. He also notified Mr. Boutelle that there were slight corrections to be made in the testimony of Mr. Morgan and it was agreed that these would be made in writing and entered | train.

upon the record. Mr. Kellogg also asked that Peter Power, the plaintiff in this suit, be produced at the next session. Reply was made that Mr. Power would be produced as soon as the direct testimony was in. It was then agreed that the adjournment taken should be subject to the call of the examiner and it was said that it would probably be three weeks before the next session is held. E. H. Harriman is to be the next witness examined.

Des Moines, March 28,-The scale committee, representing the United Mine Workers of America of district No. 13 and the mine operators of the state, reported an agreement to the joint convention during the day. In reaching this agreement the miners withdrew their uniform wage proposition and both sides granted concessions on the question of shot firers. The resolution as presented to the corvention embodied a clause for the employment of competent shot examiners, or the miners might employ shot firers at their own expense, and provided that shots should be fired but once a day in all districts where one shooting produced sufficent coal.

When the scale and resolutions as adopted by the committee were reported to the convention there was a great deal of dissatisfaction on the part of the miners. After discussing it the entire morning they retired into executive session for its consideration.

At the conclusion of the secret session it was stated that the miners had accepted the proposition of the operators to allow shot examiners and to permit the miners to hire their own shot firers as they pleased. This ends thirty days of special offer. For the conference and there will be no
